

THE FOH  
NASHVILLE PROJECT  
BY K AND T HAEHN

# THE FOH NASHVILLE PROJECT

Nashville is well known for its music, hospitality and fun, but Nashville is also a place that gives back.

The FOH project (Feed Our Homeless) was inspired by this community spirit to give back by using the skills and expertise we have.

For this project, longtime Nashville resident Thomas Haehn teamed up with his brother, Konrad Hähn, accomplished wine maker at Von Schleinitz winery in Germany, to create a line of high quality wines dedicated to support Nashville's homeless people and pets.

## KON SECCO

Check out the KON-SECCO, made by winemaker KON-rad Hähn, it's Konrad's Secco. The wine offers a great alternative to Prosecco with wonderful refreshing spritz and rich flavors. And while you enjoy, you also benefit the Nashville homeless.

## UNDERDOG PINOT NOIR ROSÉ + DRY RIESLING

For years, Dry Riesling and Dry Rosé have been discovered by only a small share of the wine drinking public. While great flavors and joy await, they have been the Underdogs of the wine world, providing the inspiration for these wines specifically designed to help the pet underdogs in Nashville, the homeless pets cared for by East C.A.N. and SAFFAW.

The dog in the picture is Sam, in memoriam to a valued companion of many years, a rescue who finally found a home where he could lay his head and was well treated and loved.

## ROCKIN' RIESLING

**ROCKIN' RIESLING:**  
After the vines struggle and drive their roots deep into the weathered slate rock soil of the terraced vineyards in the Mosel valley, they provide distinct fruit to make a great Riesling. The guitar, as a symbol for Nashville's music, is cut out from a picture of the rock walls of the vineyards terraces, where the grapes grow.

This fresh and balanced Riesling truly 'rocks' as the flavors dance on your palate.

**ROCKIN' RIESLING WEISSENBERG:**  
For the next step to even more finesse, a single vineyard selection,

Rockin' Riesling Weissenberg shows how Riesling Rocks on a higher level.
